

The 2020 senior golfers missed out on their final year of golf. They never got that opportunity to play in meets against those they have competed against for the past 3 years, to try to attain that goal of playing their best round in their career, to win a tournament, to play in the state tournament, to be the state champion. So many final opportunities were lost with the Covid-19 cancellation of the spring high school golf season.

We would like to organize an 18-hole golf tournament to give all high school senior boys one final time to compete with other golfers.
